22 Finance Report and Audit

The District of Columbia Housing Finance Agency was created in 1979 to stimulate and expand homeownership and rental housing opportunities in Washington, D.C. Nearly four decades later, our mission remains the same, though our challenges are dramatically different.

In our early years, HFA worked to attract people to return to the District after racial upheaval dramatically transformed the City's demographics and shrank its overall population. Today, thousands of people are flocking to the City for economic opportunity, joining the hundreds of thousands who have been here for generations — making the District increasingly diverse, and demand for housing higher than ever.

Our Agency must now ensure opportunity for all in a changing Washington, D.C., by balancing the needs of a booming population with a decrease in available affordable housing. A citywide approach to financing affordable housing creates a more inclusive District of Columbia and communities where residents can thrive. To accomplish this, we use a creative and multi-faceted strategy, taking advantage of the District's rich history while clearing the way for its future through preservation and new construction

The results have been nothing short of transformative and integral to the progress and evolution of Washington, D.C. HFA's impact can be seen and felt in all Wards across the City, through projects that translate into better lives for all of the District's citizens.

Their stories are our legacy, and our intertwined fates must be the foundation of our future.

DCHFA Board of Directors

Derek Ford, Chairman Leila Batties, Vice Chairwoman Charles R. Lowery, Jr., Member Stanley Jackson, Member M. Craig Pascal, Member The District of Columbia Housing Finance Agency report for the fiscal year ending September 30, 2014, is respectfully submitted to:

The Honorable Muriel Bowser, Mayor of the District of Columbia
The Honorable Phil Mendelson, Council Chairman of the District of Columbia
The Honorable Anita Bonds, Councilmember At-Large
The Honorable David Grosso, Councilmember At-Large
The Honorable Vincent Orange, Councilmember At-Large
The Honorable Elissa Silverman, Councilmember At-Large
The Honorable Brianne Nadeau, Councilmember, Ward 1
The Honorable Jack Evans, Councilmember, Ward 2
The Honorable Mary M. Cheh, Councilmember, Ward 3
The Honorable Brandon T. Todd, Councilmember, Ward 4
The Honorable Kenyan McDuffie, Councilmember, Ward 5
The Honorable Charles Allen, Councilmember, Ward 6
The Honorable Yvette Alexander, Councilmember, Ward 7

The Honorable LaRuby May, Councilmember, Ward 8

1

The Council of the District of Columbia, Mayor, DC Control Board and U.S. Congress eliminated DCHFA's appropriated debt, allowing the Agency to finally be self-sufficient

Years of Afforda

1979

Legislation was passed by the Council of the District of Columbia and signed by the Mayor to create the DC Housing Finance Agency

1983

DCHFA financed its first affordable multifamily housing development

Land Development
Program was
established to provide
management, inspection, monitoring and
accounting services for
public infrastructure
construction

1994

Agency offered a mortgage interest rate of 6.5%, the lowest rate offered in Washington since the late 1960s

1995

Became one of the first housing finance agencies to be approved by the U.S. Department of Housing and Urban Development (HUD) for its Risk-Sharing Program

1998

DCHFA purchased its headquarters at 815 Florida Avenue, NW; Received its first Issuer Credit Rating of BBB from Standard & Poor's

1999

The Home Resource Center was opened to provide free housing counseling to potential homebuyers

2001

Moody's Investors Service upgraded the Agency's Issuer Credit Rating to "A3"

2002

Initial website was launched

2003

Council of the District of Columbia approved legislation allowing DCHFA to own and develop property; A satellite Home Resource Center was opened to bring the homeownership message directly to residents east of the river

2004

Celebrated 25th year anniversary

2013

Received Issuer Credit Rating upgrade to "A"; DC Open Doors was launched to help first time homebuyers and homeowners looking to upgrade.

ble Housing Development

2005

DCHFA issued more than \$76 million in tax-exempt bonds to the DC Housing Authority to help rehab and modernize 6,858 public housing units

2007

Moved into financing affordable housing units within large redevelopment, mixed-income and mixed-use projects; Financed 100th affordable rental housing development in the District

2009

Agency celebrated its 30th anniversary; Received Issuer Credit Rating upgrade to "A-" from Standard & Poor's; Partnered with Harvard University's Kennedy School of Government to analyze mixed-income development in the District

2010

DCHFA is awarded over \$20 million to help District homeowners prevent foreclosures through the HomeSaver Program.

2008

Financed the first multifamily affordable housing project in the District to obtain both the Green Communities certification as well as a Leadership in Energy and Environmental Design (LEED) gold certification; DCHFA reaches \$1 billion mark in multifamily affordable housing finance in the District

2014

Celebrated 35th anniversary; Received Issuer Credit Rating upgrade to "A2"; HomeSaver II launches to help homeowners at risk of foreclosure due to delinquent real property taxes.

From the Board Chairman

DEREK FORD

It is with great pride that I chair the Board of Directors of the DC Housing Finance Agency as it marks its 35th year of providing affordable housing opportunities for the residents of the District of Columbia. For nearly 20 of those years, I have lived in this great City and have watched it transition from losing population to a population boom!

Chairing the board of this Agency coupled with my professional background in economic development provides me with a unique vantage point from which to view all of the progress that is being made across the City. Attracting commercial development to underserved neighborhoods can create sustainable and long term opportunities. In many neighborhoods, you now see amenities and retail that previously did not exist as little as 10 years ago when DCHFA celebrated its 25th anniversary. Cranes crowd the City's skyline as numerous residential, mixed use and commercial buildings are being constructed.

to save 696 unemployed and under-employed homeowners from losing their homes to foreclosure. In Fiscal Year 2014, the HomeSaver Phase II – Tax Lien Extinguishment Program was launched to assist homeowners at risk of foreclosure due to delinquent real property taxes.

These programs are just a few examples of how DCHFA responds to the constituency that it serves. These programs are impacting every Ward in the City.

In Fiscal Year 2014, the Agency provided funding to preserve and construct 1,009 units of affordable housing for seniors, families, veterans and homeless residents. It is imperative that existing affordable housing is retained, and that as the number of rental housing units in the District increases, affordable units are among them. The construction and preservation of affordable housing is crucial to maintaining a City that is economically and culturally diverse. During my tenure as Chairman of DCHFA's Board

With all of the economic progress, some of this sense of community has come undone. This is where an agency like DCHFA is critical to providing options for D.C.'s residents.

However, D.C. is also suffering growing pains. Many of the long-term residents of the neighborhoods that have been revitalized can no longer afford to live there and enjoy the renaissance. These are the people that have been the proverbial glue of these communities. With all of the economic progress, some of this sense of community has come undone. This is where an agency like DCHFA is critical to providing options for D.C.'s residents.

Through the DC Open Doors program, belowmarket rate mortgage loans and down payment assistance is provided to residents that desire to purchase homes in the District. When the recession's impact resulted in a foreclosure crisis, the HomeSaver Phase I Program was available through the Agency's Single Family Division of Directors in Fiscal Year 2014, the Agency issued over \$195 million in long and short term tax-exempt housing mortgage revenue bonds and over \$43 million in low income housing tax credits to assist with increasing the supply of affordable housing.

For 35 years this Agency has addressed the housing needs of District of Columbia's residents. Its presence has contributed to the rich makeup of this City. In the years to come, I am certain that the Agency's role and legacy will continue to grow. I commend all of the members of the Agency's Board of Directors and the Agency's leadership and staff on 35 years of outstanding work and look forward to witnessing how the Agency advances its mission in the future.

From the Interim Executive Director MARIA K. DAY-MARSHALL

When I think about the 35th anniversary of DCHFA, I think about all of the things we have done to fulfill our mission of preserving and increasing the supply of affordable housing in the City. It is a mission that is more important now than it has ever been before.

The landscape of the City is changing, with an increased demand for and decreased supply of safe, decent and affordable housing. I can recall a time, not long ago in the City's history, when we were begging people to live here. Today, thousands of residents head to the District each month for professional opportunities and are looking to call the City their home.

In this period of exponential growth in our City, our message to multifamily developers is this: You must integrate into your plans some measure of affordable housing so that people who have lived in these areas for decades are allowed to stay if they choose to.

As we have worked with developers, we have helped hundreds more prospective homebuyers move into the City and purchase permanent residences for themselves and their families – enabling people of all income levels to join the renaissance and become part of the next generation of Washingtonians, helping to build wealth and providing people with decent and safe homes in which to live.

We want people of all incomes, all races and all creeds to have the opportunity to live anywhere in the District, and to not have their opportunities limited only to certain areas of the City.

As a native Washingtonian, it is a trend that I welcome, but it is also one that can be a challenge, as many of our longtime residents now find themselves wondering how much longer they will be able to call the City they love home as the cost of renting or buying a home here skyrockets.

I am proud to say that our Agency has helped thousands of low and moderate income families remain in the District, particularly at a time when the City is thriving. If DCHFA does not stand in the gap to help our citizens living on the margins, those who supported the City during hard times will not be part of Washington's growth and economic resurgence. Instead, only those who can afford market-rate prices will be able to have a District zip code.

We have seen the rise of gentrification in recent years — a phenomenon that would have been even greater without the intervention of DCHFA.

We want people of all incomes, all races and all creeds to have the opportunity to live anywhere in the District, and to not have their opportunities limited only to certain areas of the City. Through our efforts, people with fewer resources are not isolated in clusters of low-quality housing, but are incorporated into mixed communities, uniting us as citizens.

Our approach has produced affordable housing in every Ward of this City, from the most neglected to the most sought-after neighborhoods in the District. In the past year, we have funded awardwinning projects that are redefining the image of affordable housing and are, quite frankly, on par with the City's upper-income developments.

The results are reshaping the idea of community in our City and setting the standard for the future of progress in Washington for generations to come.

The work of providing affordable housing for all does not happen without the dedicated men and women of DCHFA. Their efforts have helped to transform the District of Columbia and assisted countless people who live and work here to call our City home.

At the turn of the century, the District of Columbia reversed a 50-year trend as residents began flocking to the City. Today, Washington's population is approaching a high not seen since the 1940s. This exponential growth presents a host of opportunities and our mission is to ensure that all of the District's current and future residents are able to be a part of our City's progress.

In fiscal year 2014, DCHFA issued a total of \$195 million in tax-exempt multifamily mortgage revenue bonds (MMRB). MMRBs coupled with \$43 million in tax credit equity underwritten by DCHFA, leveraged \$306,000,000 in total economic development activity – primarily for affordable housing. DCHFA closed seven transactions in FY 2014 which upon completion will create 884 newly constructed, and 124 rehabilitated units, in neighborhoods across the District of Columbia.

The majority of the multifamily housing that we finance is available to residents with incomes at or below 60 percent of the Area Median Income (AMI). In FY 2014, that number was \$107,000 for a family of four – meaning that families making \$64,200 or less were eligible.

DCHFA's Public Finance Division underwrites and manages the issuance of MMRBs. A sample of recently completed DCHFA financed projects follows:

Public Finance

Single Family Programs

Challenge: Where to look to build affordable housing in the District?

More than a century after it was first opened as a co-ed vocational school, the House of Lebanon now offers 78 units of affordable housing for residents over 55 years old, including more than a dozen units for residents with disabilities. Much of the character of the historic, four-story building has been preserved, including high ceilings and windows, and large staircases. Located in the Shaw-Truxton Circle area — one of the City's most in-demand neighborhoods — House of Lebanon is also convenient to public transportation and shopping.

Compliance and Asset Management

Challenge: Where to build something modern, convenient — and affordable?

An old parking lot turned into the ideal location for nearly 400 units of affordable housing steps away from the Minnesota-Benning Metro Station. Located in historic Ward 7, Park 7 sits atop a ground floor of retail and is ideal for citizens who desire transit oriented apartments, with modern style and amenities, yet still are affordable.

THE WHITELAW APARTMENTS

Challenge: What does affordable housing look like in one of the City's hottest neighborhoods?

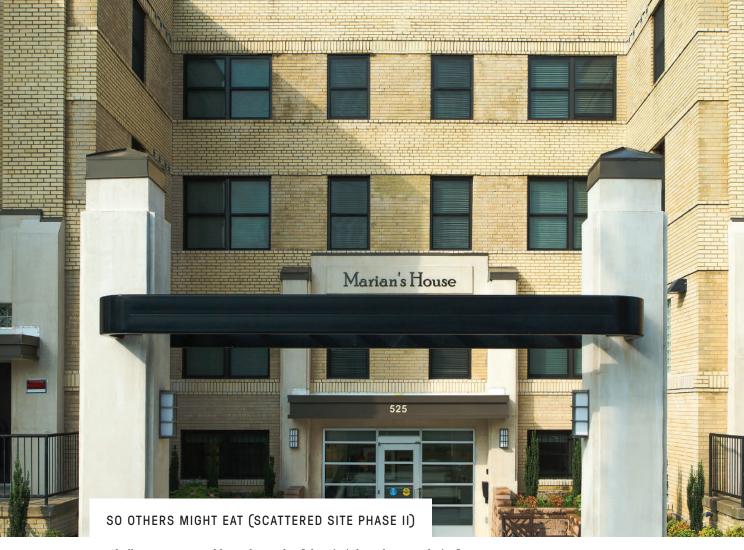

Office of Administration

Courtesy of Manna Inc. Used with Permission. All Rights Reserved.

Built nearly a century ago by and for African-Americans, the Whitelaw Hotel received a much needed capital infusion. DCHFA financed a major renovation of the historic 35-unit building now known as the Whitelaw Apartments. Today, the building preserves its soul as a place of opportunity, providing affordable housing in one of the City's fastest-growing areas, the U Street corridor. With a stately facade that pays homage to its past, the Whitelaw blends historic charm with modern convenience.

Challenge: How to address the needs of the City's homeless population?

For 45 years, So Others Might Eat (SOME) has existed to help the District's poor and homeless. The interfaith, community-based organization offers comprehensive programming to meet the daily needs of people — including food, clothing, and health care – and long-term support such as affordable housing, job training, addiction treatment, and counseling for the poor, elderly, and individuals with mental illness.

SOME is working to fulfill its mission in part through a \$14.9 million DCHFA loan that financed the purchase and rehabilitation of three buildings in the Truxton Circle, Anacostia and Congress Heights neighborhoods of the City. The complete project consists of 101 housing units, with communal spaces on each floor and community rooms in each building.

Office of the Chief Financial Officer

Challenge: How to transform an industrial area into a residential neighborhood?

Named for the old neighboring Washington Navy Yard that was an industrial hub until World War II, the Twelve12 development sits on a portion of land which was once a wharf, sugar refinery, naval ordnance plant and brewery. The development is now home to a bustling retail district and residential developments that include affordable housing.

THE POWER OF HOME

Two veteran DCHFA employees know first-hand the Agency's transformative impact on the City and its residents.

When Valencia Anderson and Lillian Johnson come to work everyday, they do their jobs with decades of personal understanding of the impact DCHFA has had on thousands of residents – including both of them.

As the records administrator for DCHFA, Johnson maintains multifamily deal transcripts and is the institutional memory of the Agency. An employee for more than three decades, she remembers when many people living and working in Washington were unable to buy a home in certain parts of the City.

Without DCHFA's involvement, Johnson said, there would still be areas of the City inaccessible to many residents like her.

"I'm a middle-class mother, a single parent ... I couldn't afford a house," Johnson said. "There is unbelievable development. [DCHFA] is helping people to be able to purchase homes, save their homes, find an apartment."

Johnson said she often refers people to the Agency to take advantage of homebuyer assistance programs, which she sees as a pathway to homeownership for the middle class.

Anderson was a single mother with a 6-year-old daughter and had been working at DCHFA for just a few years when she purchased her home through an Agency program in 1999. Initially, she did not think homeownership was possible for her, because she did not have much money.

But through DCHFA, Anderson was able to receive down payment assistance and a five-year tax credit. More importantly, she was able to provide a better life for her young family.

"When you're a homeowner, that's a big thing," said Anderson, a lifelong Washingtonian who grew up in Northwest.

Anderson said she could not have realized this goal without help from DCHFA and knows that people who come to the Agency seeking help would be struggling without the Agency's assistance.

"They wouldn't even know how to get started," she explained. "They don't know who to speak with or what to do. You can call here and we connect you with resources and people."

Anderson said through DCHFA, she was also able to learn about the responsibility of homeownership and build a career. She began in 1991 as a receptionist, but within two weeks, someone noticed that she had accounting experience. Anderson has been an accounting clerk with the Agency for more than two decades.

As an employee and a prospective homeowner, DCHFA saw Anderson's potential. As a result, she said she has seen the difference the Agency has made in her life and the lives of many District residents.

"We had our own home, our own backyard, a driveway, a garage," Anderson said. "It gave me a real sense of accomplishment."

"We had our own home, our own backyard, a driveway, a garage," Anderson said. "It gave me a real sense of accomplishment."

HOMESAVER PHASE II

Tax Lien Extinguishment Program

HomeSaver, a Hardest Hit Fund ("HHF") Initiative, is a federally-funded program. In September 2010, DCHFA was awarded over \$20 million to help homeowners prevent foreclosures in the District of Columbia. The Agency has assisted nearly 700 households and 95 percent of homeowners have kept their homes 24 months after receiving assistance. This achievement earned the Agency the distinction of having the second-highest rate of allocation nationwide among HHF program administrators.

Building on the success of this initiative, DCHFA worked with the U.S. Department of the Treasury and the District of Columbia Office of Tax and Revenue to create the HomeSaver Phase II-Tax Lien Extinguishment Program. The program provides one-time assistance to eligible District of Columbia homeowners at risk of foreclosure due to delinquent real property taxes.

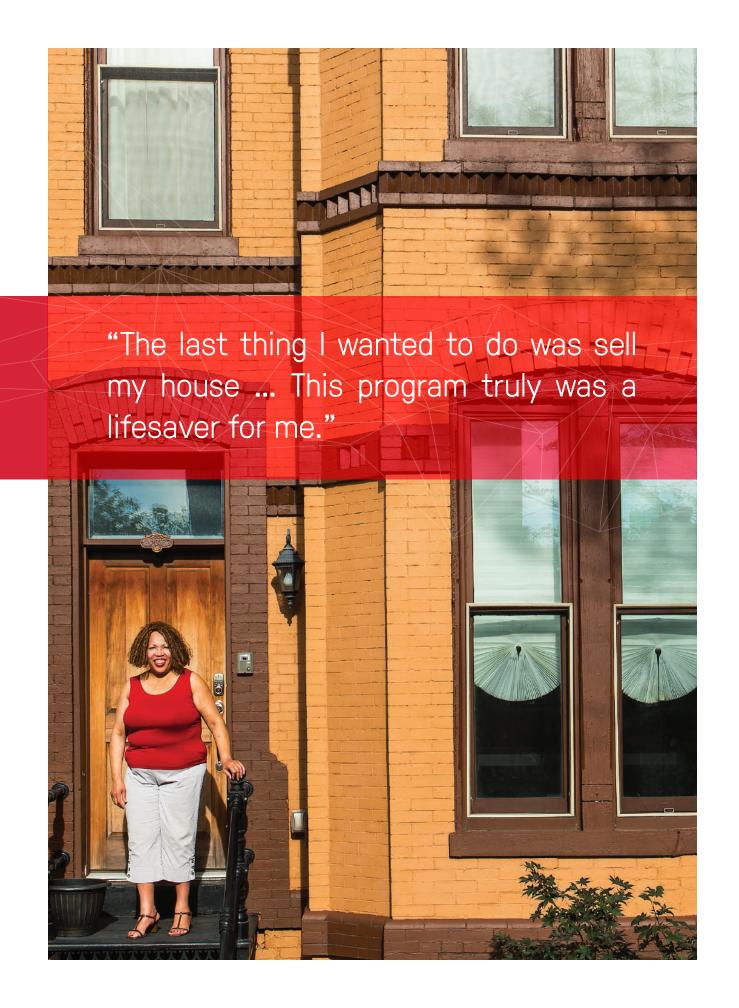

Bonita Mims discovered HomeSaver in 2013 as her unemployment benefits ran out and she found herself unable to pay the mortgage for the first time on a house that has been in her family for five decades.

"My aunt first purchased the property back in the 1960s," said Mims. "When I came here to go to school at Howard, I would visit as a student. I love the location and it was always a dream of mine to buy the house from my aunt." Mims — who took over the home in 2001 after her aunt passed away and spent years renovating it — didn't want to lose the house her aunt had worked so hard to buy. But after being turned down for assistance from her credit union, she was unsure of how she could keep it.

Mims found HomeSaver online through the City's employment services website. "I couldn't believe this existed," she recalled. "I immediately filled out an application. The last thing I wanted to do was sell my house ... This program truly was a lifesaver for me."

Mims was able to get the mortgage assistance she needed to pay for her house. She also soon found a job, but it didn't pay enough to cover her property taxes. Again, she turned to HomeSaver – now in Phase II – for help, and was able to get assistance to cover her delinquent property taxes from 2014 and half of 2015.

"It gave me a little breathing room to pay my taxes in September," Mims said. "There's no way I would still have my house without this program."

DC OPEN DOORS

hen D.C. residents become homeowners, both the City and its citizens benefit. Families are stabilized. The City's tax base is increased. Continuity is created as residents are more likely to stay and are able to pass on wealth to future generations.

But the District's booming real estate market has driven up the price of homeownership – creating a hurdle for many working residents hoping to become homeowners. Recognizing the need to help more people make the District their home, DCHFA launched the DC Open Doors program. Open to both first-time and repeat homebuyers, the program has taken root across all neighborhoods.

Eligible buyers qualify with an income not exceeding \$125,580. In addition to competitive mortgage rates, down payment or closing cost assistance is available. The program has no imposed purchase price limits or target areas – translating into a more inclusive, affordable homeownership.

Stacie Gibbs used DC Open Doors to buy her first home in Southeast D.C. in 2014 and is one of the program's biggest supporters.

After finding out about the program through a Google search, Gibbs attended an informational session where she found a lender and learned about the options available for her to purchase a home. Within eight months, she was at the closing table and picking up her keys.

"The whole process was very easy; the hardest part was finding a house," said Gibbs, a 37-year-old human resources specialist and native Washingtonian.

Now in its second year, DC Open Doors is a huge success. During fiscal year 2014 the program financed 227 single family mortgages totaling \$63,654,720. In all, since its inception in May 2013 through FY 2014, the program has produced 241 single family mortgages totaling \$67,115,658.

FACTS FROM DC OPEN DOORS FY 2014 AUDIT:

Number of Total Closed Loans 227

Independent Auditor's Report on Summary Financial Statements

Board of Directors
District of Columbia Housing Finance Agency

The accompanying summary financial statements, which comprise the summary statements of net position as of September 30, 2014 and 2013, and the summary statements of revenues, expenses and change in position and cash flows for the years then ended, are derived from the audited financial statements of District of Columbia Housing Finance Agency as of and for the years ended September 30, 2014 and 2013. We expressed an unmodified audit opinion on those audited financial statements in our report dated December 18, 2014. The audited financial statements, and the summary financial statements derived therefrom, do not reflect the effects of events, if any, that occurred subsequent to the date of our report on the audited financial statements.

The summary financial statements do not contain the disclosures required by accounting principles generally accepted in the United States of America. Reading the summary financial statements, therefore, is not a substitute for reading the audited financial statements of District of Columbia Housing Finance Agency.

Management's Responsibility for the Financial Statements

Management is responsible for the preparation of the summary financial statements in accordance with accounting principles generally accepted in the United States of America.

Auditor's Responsibility

Our responsibility is to express an opinion about whether the summary financial statements are consistent, in all material respects, with the audited financial statements based on our procedures, which were conducted in accordance with auditing standards generally accepted in the United States of America. The procedures consisted principally of comparing the summary financial statements with the related information in the audited financial statements from which the summary financial statements have been derived, and evaluating whether the summary financial statements are prepared in accordance with the accounting principles generally accepted in the United States of America. We did not perform any audit procedures regarding the audited financial statements after the date of our report on those financial statements.

Opinion

In our opinion, the summary financial statements of District of Columbia Housing Finance Agency as of and for the years ended September 30, 2014 and 2013 referred to above are consistent, in all material respects, with the audited financial statements from which they have been derived, in accordance with accounting principles generally accepted in the United States of America
